PITT’S KIDS VIRTUAL COOKING & SCIENCE PROGRAMS

Pitt’s Kids will be providing enriching experiences VIRTUALLY this April into May. This new program will be a great way for families to host fun activities for their kids.

These programs are the perfect way to try something new and stay engaged with others from around the city. We will be cooking and performing science experiments after school!

This will teach kids how to be make healthy snacks for themselves on Tuesdays and think creatively to attack some exciting science experiments on Thursdays. Our Spring Things program will be a new fun way for kids to connect, learn, and grow at home this spring!

Program Offering:

After School Virtual Program: This after school program is strictly around having fun while cooking and doing science experiments

Tuesdays and Thursdays Afternoons:
   Session: 4:30pm - 5:30pm, Ages 7 - 14 years
   Starting April 20th - May 13th.

How to apply!

Registration for the Spring programs will start on March 8th. Registration link will be found on our Website! www.cll.pitt.edu
